Intervals Used for solos

Down are the musicals intervals, but this what we go to pass are specific exercise for solos. Can to be used in the first digit of the diatonic scale, after with his improvevely putting even the final of the guitar.

Ex: **Intervals de third** you have that to play a note of each time, note G with the finger 2 in the 3^u home of the 6^u string and after note B with finger 1 in the 2^u home of the 5^u string, after note A with the finger 4 in the 5^u casa of the 6^u string, so also with the others notes in the too many strings.

Here the intervals for you to study:

Scale in the tom of G:

Third: sequence of the notes

G B A C B D C E D F# E G F# A G B A C B D C E D F# E G F# A

Fourth: sequence of the notes

G C A D B E C F# D G E A F# B G C A D B E C F# D G E A

Fifth: sequence of the notes

G D A E B F# C G D A E B F# C G D A E B F# C G D A

Sixth: sequence of the notes

G E A F# B G C A D B E C F# D G E A F# B G C A

Septimal: sequence of the notes

G F# A G B A C B D C E D F# E G F# A G B A

Octava: sequence of the notes

G G A A B B C C D D E E F# F# G G A A

After with his study, you can to practice with the metronome and increase the velocity according the development of her technique.

So with a velocity equal those great music that you listen. With the practical all the days, in little time will be taking solos of ear, with a good technique and velocity.

Enjoy yourself my good friend and success!!!!!!!!!!!!!!
